Complainant E-Mail Address (b) (7)(C)

Details of Complaint

Complaint Details

(b) (7)(C) first submitted an inquiry to EPA through the via the EPA Region 10 website. I contacted (b) (7)(C) on 5/12 regarding his question/complaint. (b) (7)(C)

(b) (7)(C) that large piles remained and when there was a precipitation event, runoff from the remaining manure piles would discharge into the Boise River. (b) (7)(C) here was no statutory requirement for Simplot to remove the manure from the abandoned feedlot. I explained to (b) (7)(C) that while there isn't a statutory requirement in the NPDES CAFO regulations, the discharge of pollutants to waters of the U.S. is prohibited except in accordance with an NPDES permit. I stated to (b) (7)(C) that EPA's Office of Compliance and Enforcement is following up with Simplot regarding the matter. I also spoke with ISDA about the complaint who had an inspector visit the facility regarding a similar complaint in the past where no discharge was observed from the facility.
